The Green Dot Awards strive to acknowledge and promote forward thinking businesses and individuals that create environmentally friendly products or services and to reward revolutionary green business plans and proposals. Businesses with a Green Dot Award are given an ideal opportunity to market their organizations and products as environmentally responsible. As increasing number of consumers and stakeholders are requesting evidence of eco-sustainability and good practices, the need for recognition is now vital.

More information about the Awards Ceremony will be sent/posted/announced as the event approaches. For additional information please visit <http://greendotawards.com>
