

The non profit association H2O new scenarios for survival is a no profit association totally non party, open to all citizen and the association is financed by contributions of members and supporters.

H2O new scenarios for survival has as its goal the study, the promotion, the organization of exhibits seminare, workshop, publications and whatever else gives value and stimulates the collective effort to look after and safeguard a natural resource like water.

WATER=LIFE want to guarate not only the democracy of design but above all it reafimrs its sustainability through the limited used of natural resources thus becoming the new status symbol for the new millennium.

The path undertaken both in Italy and abroad through workshops, seminare, conferences, aims to grow a new generation of young professionale who need to become promoters of a new way of designing and consuming with a conscience, social and ecological ethics in complete contrast with the socio cultural moment that we are going through.

We must "be a water warrior".

Please note we partecipe with a short video WATER=LIFE
